

94th Civil Support Team
Weapons of Mass Destruction Division
in coordination with ATSDR and the
American College of Medical Toxicology

Proudly Present:

***Chemical Agents of Opportunity for
Terrorism:
Toxic Industrial Chemicals and Toxic
Industrial Materials***

**THIS IS A SPECIAL 1-DAY FREE TRAINING CLASS
REGISTER FOR 1-DAY ONLY!!**

Thursday July 17th or Friday July 18th, 2008

**Holiday Resort Guam
881 Pale San Vitores Road
Tumon, Guam 96913
7:30 – 8:30 am: sign-in
8:30 – 4:30 pm: course**

Register at <http://www.trainex.org> by July 10, 2008

Most first responders have been trained to recognize and respond to attacks involving traditional “warfare” chemicals, but these are often not the most likely agents that could be used by terrorists. Common and unusual industrial chemicals may pose just as much of a threat. This course provides awareness-level training for a variety of toxic syndromes likely to be encountered following exposures to “chemical agents of opportunity.” The ACMT faculty members are board certified and fellowship trained physician medical toxicologists with extensive experience directly caring for patients suffering from the ill-effects of chemical agents and poisons.

For more information or questions, contact Libby Vianu at ATSDR: (415) 947-4319; vianu.libby@epa.gov, Capt. Rickey Flores at 94th CST: (671) 735-0457; rickey.flores@us.army.mil or Rose Spotanski at 94th CST: (671) 735-0457; rosesharon.spotanski@ng.army.mil.
