

RCRA Facilities Investigation Remedy Selection Track

Toolbox Training

ARIZONA Department of Environmental Quality

EPA's Regions 3 and 7, in partnership with Arizona DEQ **Waste Programs Division**, invite RCRA project managers, facility representatives, and consultants to a training on opportunities to improve corrective action and other cleanup projects using the **RCRA Facilities Investigation Remedy Selection Track (FIRST) tools**.

Why Attend?

RCRA FIRST provides tools to manage corrective action projects with a streamlined approach. The RCRA FIRST tools were developed based on the outcomes of two Lean events. The RCRA FIRST approach:

- ❑ Reduces time and costs needed to complete the facility investigation and remedy selection
- ❑ Accelerates positive environmental results for affected communities
- ❑ Provides a roadmap with process metrics to drive continuous improvements
- ❑ Enhances communication throughout the process
- ❑ Ensures all stakeholders have a clear understanding of the steps to select a remedy and complete construction

The training will provide an overview of the **RCRA FIRST Toolbox**, which contains the following resources:

- How-to guidance
- Case studies from pilot projects
- Process flow maps
- Tools and templates

The Training will include a discussion of RCRA Corrective Action at Arizona facilities, exercises, and a special focus on the remedy selection process.

DATE: September 18-19, 2017

TIME: 9:00 AM - 4:30 PM - 9/18

9:00 AM - 2:30 PM - 9/19

LOCATION: Arizona DEQ Building
Conf. 3175 (A & B), 3rd Floor
1110 W. Washington Street
Phoenix, AZ 85007

REGISTER AT: www.trainex.org/RCRAFIRST

ANTICIPATED TIME REDUCTIONS FROM RCRA FIRST:

RCRA Facility Investigation:

- 80% reduction realized in Region 7

Remedy Selection:

- 75% reduction from 6 years to 1-2 years
