

RCRA Facilities Investigation Remedy Selection Track EPA Region 3 Toolbox Training

Region 3, invites **states RCRA project managers, facility representatives and consultants** to a training on opportunities to improve corrective action using the **RCRA Facilities Investigation Remedy Selection Track (FIRST)**.

Why Attend?

RCRA FIRST is a new, streamlined approach to managing corrective action projects developed based on the outcomes of two LEAN events. The RCRA FIRST approach:

- Reduces time and costs needed to complete the facility investigation and remedy selection
- Accelerates positive environmental results for affected communities
- Provides a roadmap with process metrics to drive continuous improvements
- Enhances communications throughout the process
- Ensures all stakeholders have a clear understanding of the steps to select a remedy and complete construction

The training will provide an overview of RCRA FIRST, including how to use the **RCRA FIRST Toolbox**, which contains the following resources:

- How-to guidance
- Tools and templates
- Process flow maps
- Case studies from pilot project
