

RCRA Facilities Investigation Remedy Selection Track Toolbox Training

United States
Environmental Protection
Agency

Region 10, U.S. Environmental Protection Agency

EPA Region 10, in partnership with EPA's Region 3, are holding a December 11-12, 2018 training on opportunities to improve corrective action and other cleanup projects using the RCRA Facilities Investigation Remedy Selection Track (FIRST) tools. EPA Regional staff and Region 10 State program staff are invited.

Why Attend?

RCRA FIRST provides tools to manage corrective action projects with a streamlined approach. The RCRA FIRST tools were developed based on the outcomes of two Lean events. The RCRA FIRST approach:

- ❑ Reduces time and costs needed to complete the facility investigation and remedy selection
- ❑ Accelerates positive environmental results for affected communities
- ❑ Provides a roadmap with process metrics to drive continuous improvements
- ❑ Enhances communication throughout the process
- ❑ Ensures all stakeholders have a clear understanding of the steps to select a remedy and complete construction

The training will provide an overview of the **RCRA FIRST Toolbox**, ([Download Here](#)) which contains the following resources:

- How-to guidance
- Case studies from pilot projects
- Process flow maps
- Tools and templates

The Training will include a discussion of RCRA Corrective Action at Region 10 facilities, exercises, and a special focus on the remedy selection process.

DATE: December 11-12, 2018

TIME: 9:00 AM - 4:30 PM/9:00 AM – 2:30 PM

LOCATION:

**U.S. Environmental Protection Agency
1200 6th Ave, Seattle, WA**

All visitors must Check in at the Security Desk in the first floor lobby. All visitors are required to pass through a magnetometer and be escorted to the training room.

REGISTER AT:

www.trainex.org/RCRAFIRST

ANTICIPATED TIME REDUCTIONS FROM RCRA FIRST:

RCRA Facility Investigation:

- 80% reduction realized in Region 7

Remedy Selection:

- 75% reduction from 6 years to 1-2 years
